

INVESTING IN AFRICAN MINING INDABA: EVOLVING TO MEET YOUR CHANGING NEEDS

Investing in African Mining Indaba® remains the preferred deal-making platform for mining in Africa, bringing together mining corporates who seek investment, investors who want to strike deals, and government ministers who engage both groups to discuss new projects in their countries.

Over the past few years Mining Indaba has been evolving to better meet the changing needs of the African mining community, instituting several major enhancements. In 2017 we will introduce new ways that will make it possible for all stakeholders to attend in force.

The recent resurgence of this event may surprise you. Take a look, and then join us again in Cape Town in 2017.

Connecting Mining Corporates with Investors

- ▶ Mining and Exploration Company fees reduced by up to 50%
- ▶ Primary focus on networking ranging from social events to an online business matchmaking service
- ▶ Investment Discovery Forum, bringing together all project promoters and investors in a private setting

A Stronger Value Proposition for Investors

- ▶ Professional investors attend for free
- ▶ Mining Investor Programme
- ▶ VIP Investor Lounge
- ▶ Arranged meetings and other personal services

Business Networking, Evolved

Mining Indaba is the leading forum in which investors, miners and government ministers meet to share information, foster business relationships, and seek potential partners for new ventures through:

- ▶ **Business Matchmaking** – an online program that enables you to connect with the thousands of other attendees
- ▶ **Networking Roundtables** – like-minded professionals participate in open discussion about specific mining topics
- ▶ **Commodity Speed Networking** – brief one-on-one meetings with others interested in specific commodities
- ▶ **Expanded Meeting Space** – Business Matchmaking Lounge, Nedbank Lounge, VIP Investor Lounge, and private meeting space

A Trade Show? Look Closer

Mining Indaba is driving a change in the type of companies you see in the exhibition hall. Did you notice the boots, ball bearings and barbed-wire guys are gone? Over the past two years we have turned away more than 40 vendors that do not support Mining Indaba's remit. This process will continue, to ensure that the conference stays focused and on point.

An Agenda to Inspire

No other international event offers such a robust agenda from investment opportunities and innovation to new regulations, case studies, and sustainability.

Choose from multiple tracks that showcase thought leadership on the industry's most urgent issues. Hear inspiring keynotes from an unmatched group of leading mining CEOs, investors, and other industry experts. This year's roster will feature more than 200 speakers and panellists.

Expanded content includes panel discussions and debate, investment trends, mining company presentations, commodity performance, case studies, industry research, interactive roundtables, educational seminars, special information sessions, a career-skills workshop, and country-specific investment clinics.

Giving Back to Africa

We remain committed to giving back to the continent, to the industry, and to the country that has served as our gracious host since 1993. In this spirit, we support these programs:

- ▶ Mining and Engineering Student Bursary Programme
- ▶ Young Leaders Career Development Programme
- ▶ Partnership with IDC Supporting Journalism Students
- ▶ Rural Education Access Programme for Underprivileged Students
- ▶ EIs for Autism Golf Tournament
